

Bella Pink Flowering Maple

Abutilon 'Bella Pink'

Height: 6 feet

Spread: 6 feet

Sunlight:

Hardiness Zone: 10a

Other Names: Chinese Bellflower, Indian Mallow, Parlor Maple

Description:

This indoor or outdoor variety produces stunning, salmon pink flowers; lantern-like buds open to pendulous bell-to-cup blooms year round; green maple-like leaves are often variegated with yellow and white; attracts hummingbirds

Ornamental Features

Bella Pink Flowering Maple features bold salmon bell-shaped flowers with pink overtones along the branches from early spring to late winter. It has attractive yellow-variegated green foliage with hints of white. The lobed palmate leaves are highly ornamental and remain green throughout the winter.

Landscape Attributes

Bella Pink Flowering Maple is a multi-stemmed evergreen shrub with a more or less rounded form. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting butterflies and hummingbirds to your yard. It has no significant negative characteristics.

Bella Pink Flowering Maple is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use
- Container Planting

Planting & Growing

Bella Pink Flowering Maple will grow to be about 6 feet tall at maturity, with a spread of 6 feet. It has a low canopy, and is suitable for planting under power lines. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub does best in full sun to partial shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.

Bella Pink Flowering Maple makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor pots and containers. Because of its height, it is often used as a 'thriller' in the 'spiller-thriller-filler' container combination; plant it near the center of the pot, surrounded by smaller plants and those that spill over the edges. It is even sizeable enough that it can be grown alone in a suitable container. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
